Transcendence

Transcendence

Trans + scendere

- **Trans** - Latin: Above, over, beyond
- **Scandere**/scendere - Latin: To go to the top, uphill, to climb, to ascend

“The act of rising above ordinary limitations to a superior state of existence”

mfa.gov.il

“...King Solomon's Seal, whose **base** is on the **ground** and whose **tip** reaches **heaven**, symbolizes a **harmony of opposites**, whose significance is manifold as much as it is multi-cultural. It reflects the cosmic order, the skies, the movement of the stars in their spheres, and the perpetual **flow between heaven and earth**, between the elements of air and fire. The Seal, therefore, symbolizes **super-human wisdom** and rule by divine grace...”

“Super-human” knowledge has been on offer since the very beginning. Of course it comes at a very heavy cost:

“And the serpent saith unto the woman, '*Dying, ye do not die*, for God doth know that in the day of your eating of it—your eyes have been opened, and *ye have been as God*, knowing good and evil.’”

Gen 3:4-5

Trans-humanism and transcendence are equivalent ideas, because we are after all talking about *PEOPLE* who are interested in 'transcending' all ordinary limitations.

Another way to express 'transcendence' is
choice without boundaries, limitless possibility.

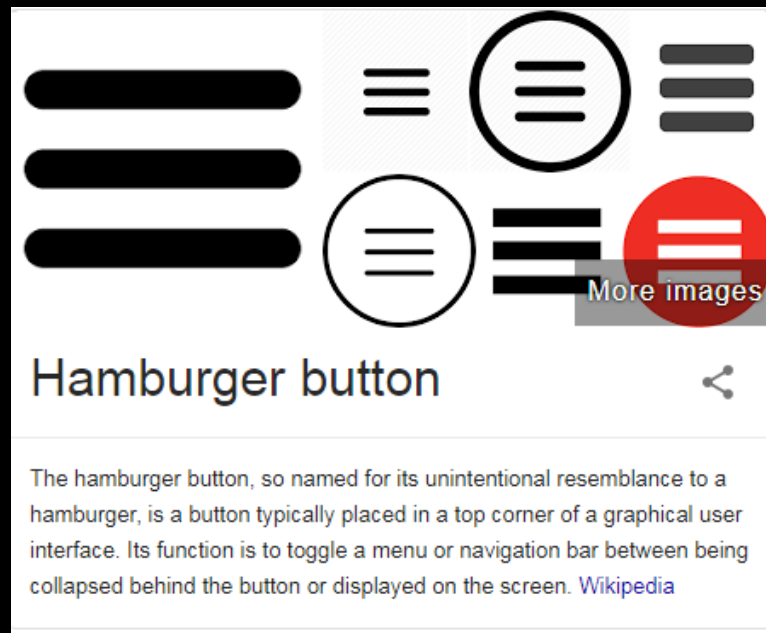

You can be anything you want to be:

Animal or person, or anything in between

Male or female, or anything in between

The symbol for 'choice':

This is called the 'hamburger' button, and clicking it displays a menu list of CHOICES.

That is why it is found joined to 'trans'
chevrons, like these:

Trans ideas are now penetrating all areas of life.

Trans-genic

Trans-gender

Trans-indigenous

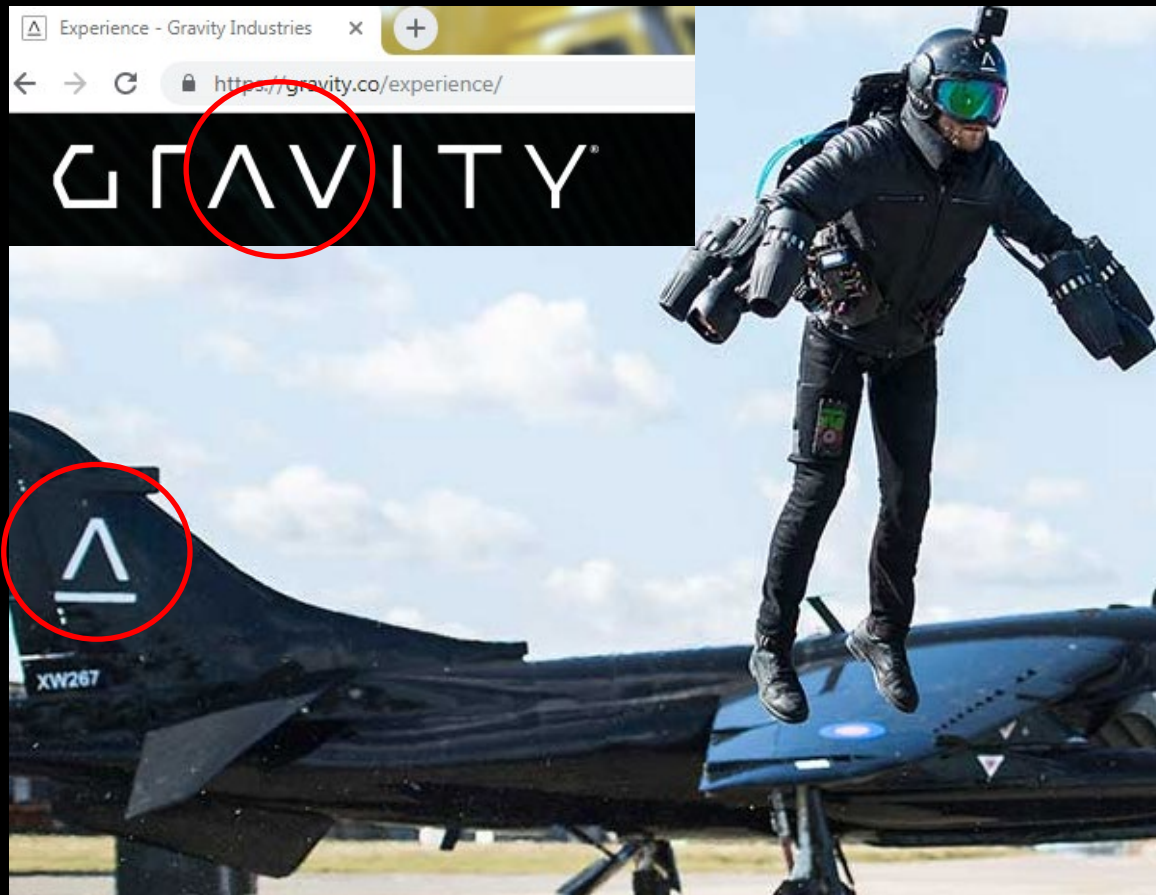

Tran-religious

Trans-human

So where has this costly 'transcendent' wisdom
led the world...and the 'churches'?

Let's have a look.

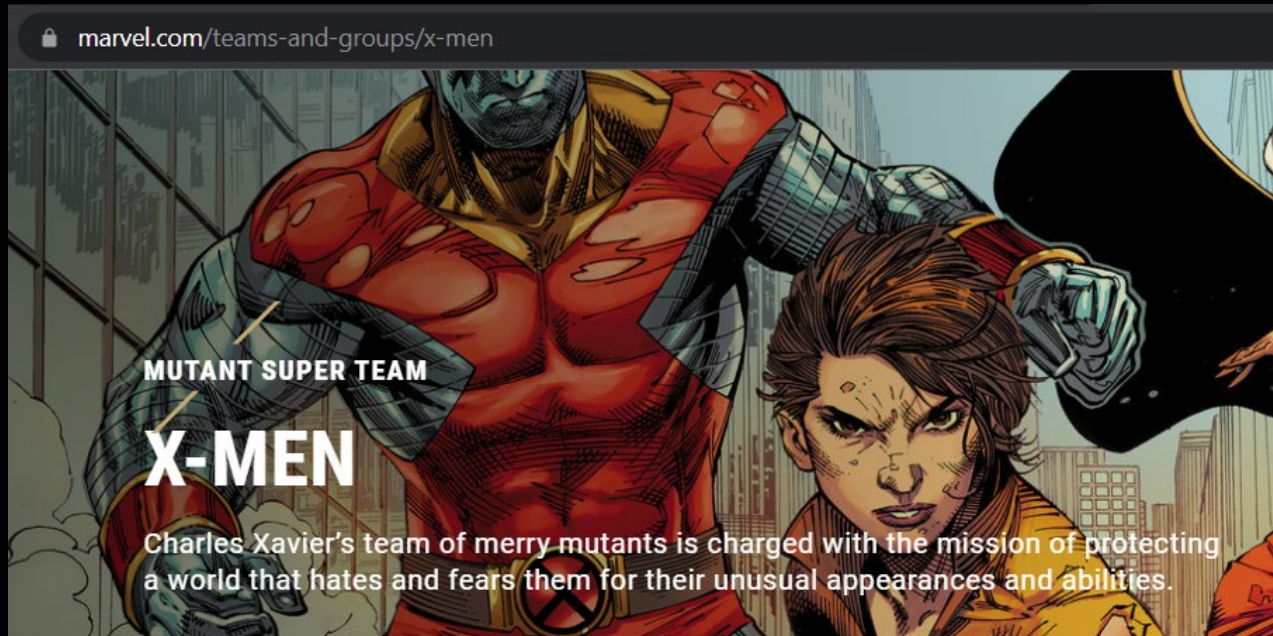

“Trans-Human”

“Richard Browning, leveraged cutting edge technology to reimagine human flight, forging an elegant partnership between mind, body and machine.”

“Augmenting the body and mind with a suite of patented technologies to enable unparalleled human flight,”

X-Men: Not-so-innocent conditioning:

“Realizing **mutants** were the next step in human evolution, Professor Charles Xavier gathered gifted teenagers to be his first class of students. His goal to protect and educate the next generation of **homo superior**, while pursuing a dream of harmony.”

“Trans-genic”

“Modern genetic technology can be used to modify the genomes of living organisms. This process is also known as “genetic engineering.” Genes of one species can be modified, or genes can be transplanted from one species to another. Genetic engineering is made possible by **recombinant DNA technology**. Organisms that have altered genomes are known as **transgenic**.”

“Trans-gender”

The United States has issued its first passport with an "X" gender designation and expects to be able to offer the option to nonbinary, intersex, and gender-nonconforming people early next year, the State Department said Wednesday.

“Trans-indigeneity...”

World's indigenous people gather in New Zealand

Tongan-born academic Tevita Ka'ili said the event would bring Pacific Islanders together with First Nations people from around the world.

The professor of culture and anthropology at Hawai'i's Brigham Young University said he would present a paper on trans-indigeneity.

"Trans-indigeneity is the idea that as indigenous people are moving outside of their homeland, they are in contact with other indigenous people," Professor Ka'ili said.

"And so it's sort of the collaborative work that they're doing, the sort of co-operation that's happening with multiple indigenous."

University of Waikato's Deputy Vice-Chancellor Māori Sarah-Jane Tiakiwai said it was an honour to have Kiingi Tūheitia at the pōhiri.

"The kaupapa at NAISA has been about reserving and preserving our traditions, retaining our land, retaining our sovereignty as Native peoples," Dr Tiakiwai said.

“Transcendence” is now so ‘relevant’ that it has penetrated most of the organized ‘churches’:

“Trans-Christian?”

Which spirit is leading?

THE ASSEMBLIES OF GOD

The Assemblies of God was founded in 1914 in Hot Springs, Arkansas with 300 people at the founding convention. Today there are nearly 13,000 churches in the U.S. with over 3 million members and adherents. There are more than 69 million Assemblies of God members worldwide, making the Assemblies of God the world's largest Pentecostal denomination.

~~Let Heaven come~~

ABOUT AVAIL LEADERSHIP

Whether you are a pastor, entrepreneur or organizational leader, the events of the first quarter of 2020 will permanently shape the future of your business, church or ministry. The tagline of AVAIL is “the art of leadership.” This is intentional. As someone who led a university for 14 years, I would never minimize the value of education in the preparation of a leader.

However, even the most well-educated leader must draw upon a deep reservoir of creativity fed by the Holy Spirit in order to respond to the crises and opportunities the future holds—not only with the strategic calculations of an engineer, but with the creative strokes of an artist.

The goal of AVAIL is to help you discern the changing context in which you serve, wrestle with the challenges, seize the opportunities and do so in a way that is true to the unique gifts and creativity that God has placed within you.

Those who embrace the future are undoubtedly embracing the unknown. However, as the last few months have shown us, we are sometimes thrust into the unknown, whether we like it or not.

I challenge you to join me in stepping into the future. The good news is that we don’t do this alone—and that the God we serve is already there, waiting for us.

Sam Chand

Do *you* agree with the goals of 'transcendence'?

Because at its heart, Transcendence really has only one declaration:

“Man is God.”
